UNIVERSITY
OF
JOHANNESBURG

Future proofing or crystal gazing

- Domain 1. Cloud Concepts, Architecture and Design
- Domain 2. Cloud Data Security
- Domain 3. Cloud Platform and Infrastructure Security
- Domain 4. Cloud Application Security
- Domain 5. Cloud Security Operations
- Domain 6. Legal, Risk and Compliance

Cyber security skills in the 4IR

Workforce roles in the cyber security

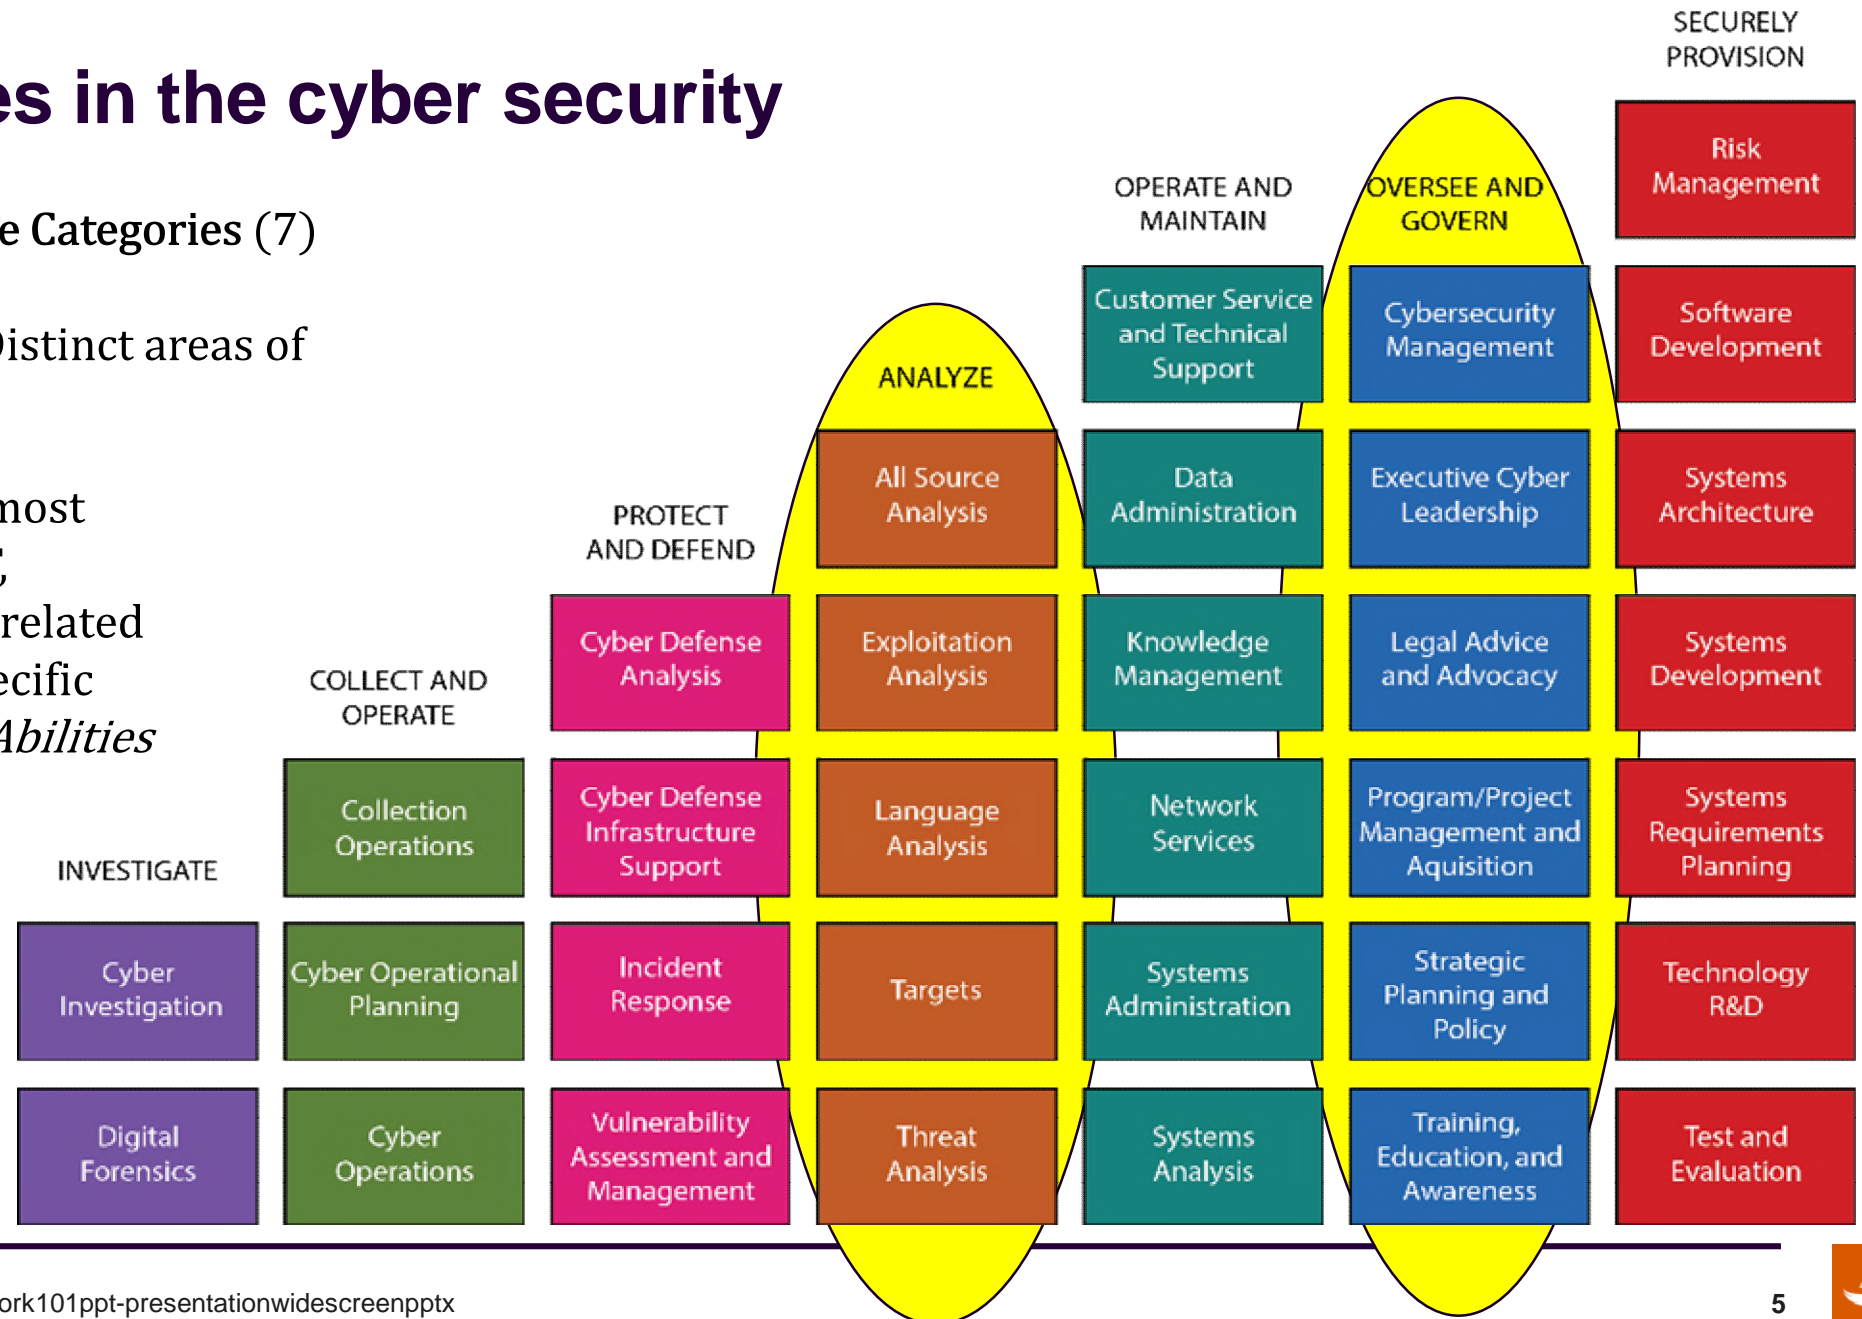

Workforce roles in the cyber security

Cybersecurity Workforce Categories (7)

Specialty Areas (33) – Distinct areas of cybersecurity work

Work Roles (52) – The most detailed groupings of IT, cybersecurity, or cyber-related work, which include specific *Knowledge, Skills, and Abilities (KSA's)* required to perform a set of *Tasks*.

Broad based skills include non-IT skills

Organisational preparedness

Organisational preparedness - Planning

NIST

Framework for Improving
Critical Infrastructure Cybersecurity

Comprehensive Cyber Security Awareness Programmes

- What are the latest relevant cyber attacks?
- How do I use my system securely?
- How do we know if our programme is working?

Conclusion

- A broad based cyber security investment is needed today.
- We should invest in our cyber security functions.
- But should not neglect our end users.
